

Capability Statement

Core Competencies

We believe the right people and businesses have long been drivers of social change, ultimately benefiting society. Iterators LLC provides software testing services and PDF remediation services as an inclusive SBA-certified woman-owned small business. We work with federal, state, and local governments as prime contractors or subcontractors.

- Quality Assurance, Functionality, Exploratory, Compatibility, Useability, for Web, Mobile & Enterprise Software
- Accessibility Testing, Section 508/WCAG, Voluntary Product Accessibility Template (VPAT), websites & mobile apps
- On demand QA to supplement in-house staff during a crunch time or for an entire project
- Automated Regression Testing: Custom Accessibility program in Python, Selenium, Java, Appium, Applitools
- PDF Remediation & Document Accessibility Services, including accessible HTML content
- Data Cleaning and Data Validation ranging from the Arts industry to the Financial Industry (Banking)

Our Key Differentiators

- 99% of clients are also repeat customers
- In-house trained testers, ISTQB and Trusted Testers certified by Dept of Homeland Security (DHS)
- Available for short-term and long-term projects
- Work completed onshore with our DE&I employees
- Device Farm used for all projects
- PDF remediation and verification software
- Test management software and cross browser simulators
- Ability to integrate with a variety of tools used by clients
